Subject: Medical Absence Notification - Wilms Tumor Diagnosis of my nephew.

Respected Sir,

I hope this letter finds you well. I am writing to inform you of my nephew's medical condition and the reason for my recent absence from school.

My nephew has been diagnosed with Wilms tumor, a rare type of kidney cancer typically found in children. His treatment is currently underway at Tata Memorial Hospital in Mumbai. Unfortunately, due to the severity of his condition, the treatment process has been progressing slowly. Biopsy procedures were conducted on 27th March to further assess the situation and determine the most appropriate course of action.

As a result of my nephew's diagnosis and ongoing treatment, I have been absent from school from 11th March to 28th March to provide support and assistance to my family during this challenging time.

I kindly request your understanding and cooperation in this matter. If there are any necessary arrangements or documentation required to accommodate my absence and ensure that I can catch up on any missed coursework, please let me know, and I will promptly provide the necessary information.

Thank you for your attention to this matter. Your support during this difficult time is greatly appreciated.

Sincerely,

Vipin Gupta

Administrator
